SAUJAN PAUDEL

Computer Science Student | Automation & Systems

Pokhara, Nepal (UTC+5:45) | saujanpaudel12@gmail.com | +977 9745985171

TECHNICAL STACK

Languages: Python 3.12, TypeScript, JavaScript, C++, SQL

Frameworks: Next.js, React, Prisma ORM, Discord API

Systems: Linux / Bash, pathlib, shutil, automation workflows

Databases: PostgreSQL, relational data modeling, Notion databases

PROJECTS

Full-Stack Discord Bot & Live Ops Engine

Slash-command lifecycle, live heartbeat monitoring, AutoMod, invite analytics, reaction roles.

Python Automation & Workspace Pipeline

Automated directory hygiene, intelligent format sorting, and batch file triage with pathlib and shutil.

Resilient Web Scraping & Data Pipeline

Rate-limited DOM parsing, error recovery, and structured CSV / JSON dataset generation.

COMMUNITY & LEADERSHIP

College Representative, Code for Change Kathmandu

Contributed to CodeFest 2026, AI Guide workshops, and technology ideathons.

EDUCATION & ACADEMIC CORE

Computer Science | Data Structures & Algorithms, Computer Networks, practical software development.
